

Older Driver Safety Awareness Week 2021

RESOURCES - Target Audience: OLDER DRIVER AND FAMILY

- 37 states and the District of Columbia have special requirements for older drivers. Use [My State Info](#) to find the information you need to know in your state.
- [Driving Tips for Seniors](#): American Automobile Association produced a video with reminders and tips for senior drivers. Tips include following speed limits and sticking to familiar roads when driving at night.
- Plan ahead with the [ChORUS Older Driver Transportation Planning Tool](#). This tool guides you through the steps of developing your transportation plan. Starting early allows you to map out your needs, identify and explore options for alternate transportation modes in your area, and plan for continuing a full and active life whether you are driving or not.
- [ChORUS Transportation Budgeting Tool](#): The ChORUS Transportation Budgeting Tool allows you to compare your current monthly transportation costs with estimated monthly alternate transportation costs if you were to give up your car. The tool is designed to help you plan for your future transportation needs.
- [Driving Safely While Aging Gracefully](#): NHTSA has created a guide filled with information on how older adults can drive safely.
- [CarFit](#): is an educational program that provides information explaining a range of vehicle safety features and offering guidance on how to adjust those features to optimize the benefit for individual body sizes and statures. Attendees also receive a resource bag of materials on local community-specific resources that could enhance their safety as drivers and increase their mobility in their communities.
